Complete POS Solution

MYNT POS

One-Stop-Shop for Point of Sale

Full System Setup and Configuration

MYNT is the most advanced turnkey POS solution for multi-location, franchise QSRs and traditional table service restaurants. Each system comes standard with Menu Creation, Remote Installation, and Training to ensure your customer gets up and running quickly and efficiently from Day 1.

Lifetime Warranty and 24/7 USA-based support

MYNT utilizes enterprise-grade hardware that is specifically designed for the rigors of daily use in high paced, tough environments. At MYNT, our #1 goal is to make sure both you and your merchants are taken care of. We have 24/7/365 USA-based technical support along with a hardware warranty good for the life of the subscription on all standard MYNT equipment.

Back Office Tools for Success

Managing data and reviewing analytics is critical when running a business. With MYNT Back Office tools, your data is available at any time—both locally or remotely.

Labor Management

Designate unique permissions and groups on a per employee basis. Specify pay rates, hours, break rules and more to flawlessly manage your workforce.

Simple Menu Editing

Manage your menu items in one central location—even for multi-location! Make menu edits in real time or schedule them for a future date or time.

Reports & Analytics

An array of premade reports are available to help you monitor your business. Don’t see the exact report you want? Create your own custom report with our easy to use generator.
